Distribution  
Customer pick up service  
Manage returns  
Rework and assembly capability

## Warehouse Support™

Run out of warehouse space?  
Looking to outsource the warehouse and distribution function? Many businesses are moving to third party warehousing to enjoy the benefits of streamlined operations. You can forget about up front capital expenditure, building leases, forklift leases, staff and transport hassles and only pay for what you use.

**Leading Australian organisations choose Teamwork Oz** for our innovative approach to warehousing which we call Warehouse Support™. We invest in the smart use of technology and quality systems to deliver consistent, dependable results.

## Smart use of technology

When you entrust your business with us **we empower you with complete visibility and control** of your stock. Using our specially developed **YOURwarehouse™** software, you can keep track of receiving, storing, cycle counting, ordering, and shipping. The system is web based so you can access this critical information from practically anywhere in the world 24/7.

Our technology gives you automatic alert of 'out of stock' inventory. We even provide back to base alarm systems in all our warehouses giving you added security.

Not only can you track your stock, you can manage it too. **YOURwarehouse™** enables you to access your product catalogue and place an order at any time using our online shop. This can even be accessed by your sales team in the field using hand held computers. It's a powerful tool when your sales team can process an order while on the customer's premises.

All clients who use our warehouse service have access to our specially developed software. We call it **YOURwarehouse™** because it empowers you with unprecedented access and control of your inventory.

Access your warehouse from your desk, around town or practically anywhere in the world.

Instant visibility of your inventory status online 24/7

#### INWARD GOODS

- Goods receipt advice
- Check in against packing list

#### STOCK ON HAND

- What • Quantity • Where

#### ORDER STATUS

- By purchase order • Back order
- Delivery docket

#### DESPATCH

- Pick sheets • Fulfillment

#### OUTWARD GOODS

- Consignment note • Truck & trace

#### RETURNS

- What • Quantity • When

## Quality Systems

### Great systems deliver great results.

As specialists in this field we have refined and documented our processes to ensure smooth transactions. We also have the flexibility to tailor systems to meet your needs.

Benefits include: • Significant improvement in inventory accuracy • Lower inventory levels • Improved shipping accuracy • Lower inventory search time • Reduced labor hours

# Distribution

As part of our Warehouse Support™ we provide a **comprehensive distribution** service. We can take care of freight in and freight out and with our high volumes we have access to very competitive rates. Local and interstate couriers are available, even home deliveries of consumer products. We have 15,000 vehicles at your disposal from 1 tonne utes to semi trailers.

**We do what it takes**

We are your single point of contact for all your warehouse and distribution requirements. We do all the things you would expect from a third party warehouse plus **we love doing what the others find too hard**. We have the flexibility to handle customer pick-ups, returns – we're even set up to do reworks and assembly. We believe in working hard and open communication. Every day we are looking for smarter and more effective solutions to be your preferred company to do business with.
